Press Release from The Veteran Car Club of Great Britain

Team of Marque Specialists – a new feature of Dating at The Veteran Car Club

The Club can report that once again we are able to offer a facility to members for dating veteran and Edwardian cars through our company Veteran Car Services Limited.

Dating meetings have commenced and we are pleased to have Dating Advisory Committee Members, many of long-standing in the Veteran Car Club, offering their services in this highly important activity. We welcome also to the Committee more recently joined members of the Club with complementary skills, keen to become involved in this most interesting aspect of Club life.

The library facilities at our own Headquarters at Ashwell are an outstanding source of considerable information, invaluable to the accurate dating and identification of cars of our era. The database of information regarding known veteran and Edwardian cars that have belonged to members over the last 80 years is absolutely unique to our Club and a sound source of reference.

An all-new aspect of the Dating Advisory Committee is the creation of a formidable team of marque specialists with particular in-depth knowledge, or indeed possessing historical records relating to individual makes. The Committee looks forward to drawing on this expertise when required. We plan to expand this team of specialists over the coming months and we will warmly welcome input in this area from members, non-members or those who have previously served on the former Dating Panel.

Through Veteran Car Services Limited we are delighted to announce that once again we have been appointed to carry out eligibility checks for the Royal Automobile Club's London to Brighton Veteran Car Run.

The Veteran Car Club is confident that we have at our disposal the expertise, resources and enthusiasm to work closely with our members and outside institutions/reference sources to provide to our members an unique dating and identification facility.
